Survey Solution

# Current System Problems

◆ The code is very old and not secure

◆ Admin Panel is complicated

◆ Only one type of reports can be exported

◆ Cannot modify users answers

◆ Front end is not user friendly

◆ Front end is not Mobile Friendly

Our Solution System

◆ **We will create new survey system based on the current database schema so** All Old Data will not be Lost.

◆ **Easy and Clear Admin panel to create and manage the exams with Great Features:**

1. Grid Add, Grid Edit, multiple Delete, Export to CSV, PDF, HTML, EXCEL.

2. **Advance Reporting System** allows you to generate multiple reports type: EXAM, Category, Question, Answer, User, City , Job , DATE, Between Dates .. Etc

◆ **Responsive Design:** User and mobile Friendly Front end so it can be opened in all mobile devices and tablets

1. Pagination Progress bar so user will not feel boaring while answering

2. Login with username and password to allow user to resume exam any time.
